Measures:

115, 116, 117, 119 all funded by massive donations from outside the state of Oregon similar to Measure 110 (decriminalization of drugs)

115: Allow the Legislature to impeach elected state executives

We the people elected the state executives and the legislature should not be able to undo the will of the people.

VOTE: NO

116: Establish an Independent compensation commission for certain public official’s salaries

We the people should decide the compensation for public officials, but with the legislature doing the task, we could hold them accountable, definitely not with an unelected commission.

VOTE: NO

117: Establish rank-choice voting for federal and state offices

Under rank-choice voting (RCV), the algorithm determines election results, dilutes majority vote, cannot be audited, would lead to centralized elections and loss of county control, would cost more, and could take weeks until results are known. RCV is more confusing to the voter and could lead to having no voice in who is elected.

VOTE: NO

118: Corporate Tax for Universal Basic Income

Very bad idea that will bring economic disaster and high-prices to our economy and is almostly entirely funded by California millionaires.

VOTE: NO

119: Unionization of cannabis workers

Silences business owners to help boost unions in the cannabis business. Government law is manipulated in favor of unions.

VOTE: NO

Portland 26-253: Removes citywide vote requirement for mandatory building weatherization.

If the measure is approved, the City would be able to mandate building weatherization for any structure built before September 1, 1979, without referring the mandate to voters.

VOTE: NO

Thank you President Trump!

Thank you for

- the tax rate cuts for the middle class
- shutting off the endless flow of illegal immigrants at the southern border
- reforming the VA
- bringing back millions of mostly union manufacturing jobs to the US
- the largest number of Americans with gainful employment since the government started keeping records yielding the lowest unemployment rates for most every group
- eliminating Obamacare’s “individual mandate”
- getting the US out of foreign policy disasters like the Iran nuclear deal, the Paris Climate Accords, the Trans-Pacific Partnership, & ending NAFTA

And finally, Mr. President, thank you for 24-hour-a-day commitment on your two most important achievements, the security and prosperity of all Americans.

We want you back!
